

Pathways to Sustainable Development

Workshop 2: Creating Dialogue on a Research Agenda for Sustainable Resource Development

November 6, 2010

Drachman Hall Room A118

8:00am—3:30pm
Lunch provided

Space is limited
RSVP by Nov 1 to
Patty Bosco
pbosco@email.arizona.edu

Sponsored by:
Lowell Institute for Mineral Resources

Presentations:

- Luke Danielson, J.D., President, Sustainable Development Strategies
- Bruce Marsh, VP Sustainability, Freeport McMoRan
- Peter van der Veen, retired, World Bank
- Cassie Boggs, Sr VP, Corporate Development, Barrick Gold
- Faculty data blitz

Bridging Science, Engineering, Health, Policy

Fax: 520 621 8330
E-mail: pbosco@email.arizona.edu

Why You Should Attend:

Growing world population, the imperative of reducing extreme poverty, the push for the materials required for a transition to renewable energy, increasing competition with other land uses, a growing voice for community concerns, scarcity of water and energy, and many other drivers are transforming the minerals industries.

The challenge of meeting the world's material needs has never been greater, and is driving a new and much broader research agenda, involving a broader range of disciplines and a need for understanding across disciplinary boundaries.

Help us construct this new research agenda, and see what you can contribute.

Who should attend: Faculty, researchers, graduate students, industry professionals, policy makers

Outcomes:

Research agenda
Networking, establishing research collaborations
Curriculum ideas to address education needs

ENGAGE IN THE DIALOGUE!

The workshop is highly participatory

Grad students are particularly encouraged to attend

Build a network
